

Hong Kong International Legal Talents Training Academy organises Legal Practice Training Course for Chinese Enterprises Going Overseas (with photos)

The Legal Practice Training Course for Chinese Enterprises Going Overseas, organised by the Hong Kong International Legal Talents Training Academy, officially commenced today (October 20).

The Secretary for Justice, Mr Paul Lam, SC, spoke at the opening ceremony of the course today. He expressed his gratitude to the Bureau of Policies, Laws and Regulations of the State-owned Assets Supervision and Administration Commission of the State Council for their support and trust in the Academy. He said that with the high-quality development of the national economy, an increasing number of outstanding Mainland enterprises are actively expanding to overseas markets, while at the same time facing many challenges. Hong Kong has always been a springboard for Mainland enterprises to go global, and is the only common law jurisdiction in the country with both Chinese and English as official languages under the "one country, two systems" framework, making Hong Kong an important hub linking the Mainland and the rest of the world. He said he hopes that the training course will enable participants to comprehensively understand current trends in overseas expansion, keep abreast of evolving legal and regulatory challenges, and effectively tackle the complex issues encountered by enterprises when "going overseas".

Participants in this course, including over 30 legal advisors and related professionals from state-owned enterprises, will explore the practical and imminent legal issues and challenges faced by Chinese enterprises going global. Speakers of the lectures include experienced legal professionals from Hong Kong and overseas, as well as members of the Hong Kong International Legal Talents Training Expert Committee. The Academy also invited more than 10 senior legal practitioners from 12 jurisdictions in Southeast Asia, the Middle East and Africa, to share their first-hand experiences and insights in the local markets with participants in three sessions.

The Academy will continue to leverage the unique advantages of "one country, two systems" and the Hong Kong common law system, and organise different courses to promote Hong Kong's legal services in assisting Mainland enterprises in going global.
