## **ARTICLE 6**

### **Principles Governing Operation of Agreed Services**

(1) There shall be fair and equal opportunity for the designated airlines of the Contracting Parties to operate the agreed services on the specified routes.

(2) In operating the agreed services the designated airlines of each Contracting Party shall take into account the interests of the designated airlines of the other Contracting Party so as not to affect unduly the services which the latter provide on the whole or part of the same routes.

(3) The agreed services provided by the designated airlines of the Contracting Parties shall bear a close relationship to the requirements of the public for transportation on the specified routes and shall have as their primary objective the provision at a reasonable load factor of capacity adequate to meet the current and reasonably anticipated requirements for the carriage of passengers and cargo, including mail, originating in or destined for the area of the Contracting Party which has designated the airline. Provision for the carriage of passengers and cargo, including mail, both taken on board and discharged at points on the specified routes other than points in the area of the Contracting Party which designated the airline shall be made in accordance with the general principles that capacity shall be related to :

- (a) traffic requirements to and from the area of the Contracting Party which has designated the airline;

- (b) traffic requirements of the region through which the agreed service passes, taking account of other air services established by airlines of the States comprising that region; and
  - (c) the requirements of through airline operation.
- (4) The capacity to be provided on the specified routes shall be such as is from time to time jointly determined by the Contracting Parties or their respective aeronautical authorities.

## **ARTICLE 7**

### **Tariffs**

- (1) The tariffs to be applied by a designated airline of one Contracting Party for carriage to and from the area of the other Contracting Party shall be those approved by the aeronautical authorities of both Contracting Parties and shall be established at reasonable levels, due regard being paid to all relevant factors, including cost of operation, the interests of users, reasonable profit and the tariffs of other airlines operating over the whole or part of the same route.
- (2) The tariffs referred to in paragraph (1) of this Article may, subject to applicable competition legislation, be agreed by the designated airlines of the Contracting Parties seeking approval of the tariffs, which may, at their discretion, consult other airlines operating over the whole or part of the same route, before proposing such tariffs. However, a designated airline shall not be precluded from proposing, nor the aeronautical authorities of the Contracting Parties from approving, any tariffs, if that airline shall have failed to obtain the agreement of the other designated airlines to such tariff, or because no other designated airline is operating on the same route. References in this and the preceding paragraph to “the same route” are to the route operated, not the specified route.
- (3) Any tariff proposed by a designated airline of one Contracting Party for carriage to and from the area of the other Contracting Party shall be filed with the aeronautical authorities of the Contracting Parties by the designated airline seeking approval of the tariff in such form as the aeronautical authorities may separately require to disclose the particulars referred to in Article 1(e). It shall be filed not less than 60 days (or such shorter period as the aeronautical authorities of the Contracting Parties may agree) before the proposed effective date. The proposed tariff shall be treated as having been filed with the aeronautical authorities of a Contracting Party on the date on which it is received by those aeronautical authorities.

(4) Any proposed tariff may be approved by the aeronautical authorities of a Contracting Party at any time and, provided it has been filed in accordance with paragraph (3) of this Article, shall be deemed to have been approved by the aeronautical authorities of that Contracting Party unless, within 30 days (or such shorter period as the aeronautical authorities of the Contracting Parties may agree) after the date of filing, the aeronautical authorities of one Contracting Party have served on the aeronautical authorities of the other Contracting Party written notice of disapproval of the proposed tariff.

(5) If a notice of disapproval is given in accordance with the provisions of paragraph (4) of this Article, the aeronautical authorities of the Contracting Parties may jointly determine the tariff. For this purpose, one Contracting Party may, within 30 days of the service of the notice of disapproval, request consultations between the aeronautical authorities of the Contracting Parties which shall be held within 30 days from the date the other Contracting Party receives such request in writing.

(6) In approving tariffs, the aeronautical authorities of a Contracting Party may attach to their approval such terminal dates as they consider appropriate. Where a tariff has a terminal date, it shall remain in force until the due terminal date, unless withdrawn by the airline or airlines concerned with the approval of the aeronautical authorities of both Contracting Parties, or unless a replacement tariff is filed and approved prior to the terminal date.

When a tariff has been approved without a terminal date and where no new tariff has been filed and approved, this tariff shall remain in force until the aeronautical authorities of either Contracting Party gives notice terminating its approval. Such notice shall be given at least 90 days before the intended terminal date of the tariff. The aeronautical authorities of the other Contracting Party may, within 30 days of receipt of the said notice, request consultations between the aeronautical authorities of the Contracting Parties for the purpose of jointly determining a replacement tariff. Such consultations shall be held within 30 days from the date the aeronautical authorities of the other Contracting Party receives such request in writing.

(7) If a tariff has been disapproved by the aeronautical authorities of a Contracting Party in accordance with paragraph (4) of this Article, and if the aeronautical authorities of the Contracting Parties have been unable jointly to determine a tariff in accordance with paragraphs (5) and (6) of this Article, the dispute may be settled in accordance with the provisions of Article 16 of this Agreement.
